REST API and GraphQL

Felipe Amaya

FULLSTACK DEVELOPER

Profile

Fullstack Developer specializing in JavaScript technologies, with over 7 years of experience building innovative web and mobile applications. Skilled in React Native, Node.js, and frameworks like Express and Strapi. Experienced in international projects within the hospitality and rental industries, developing complete front and backend solutions, especially tenant portals, interactive maps, and activity calendars for large resorts. I excel in creating mobile experiences and scalable applications with advanced state management and real-time communication.

Work History

SENIOR DEVELOPER

SMk Digital Studio
April 2018 - Present

- Lead frontend/backend projects, ensuring smooth deployment and high performance.
- Manage launches, focusing on scalability and maintenance.
- Collaborate with teams to deliver quality, user-centric applications.

FULLSTACK DEVELOPER

September 2016 - April 2018

- Developed mobile apps for local businesses with user-friendly designs.
- Managed end-to-end development for timely, quality delivery.
- Improved app performance through testing and optimization.

FREELANCE

January 2016 - Present

- Created tenant portals, interactive directories, and apps for rentals and hospitality
- Built real-time apps with maps and activity calendars.
- Delivered custom fullstack solutions, integrating backend APIs for clients.

Education

CORPORACION UNIFICADA NACIONAL

Bachelor of Systems Engineering, August 2016

Graduated with a focus on software development, algorithms, and systems architecture, laying a strong foundation for a career in fullstack and mobile development.
